

Greetings!

Time has simply flown by this year! I am pleased to report that there is a growing interest in incorporating Bau (Building) Biology or "Green", along with Feng Shui. In March I spoke at the International Design Conference, Universidad Veritas, San Jose, Costa Rica, where Feng Shui and Building Biologie were favorably received. I just returned from the Green Trends 2005 Conference in Sarasota, hosted by Florida's Green Building Council. More people are building healthy, sustainable buildings than ever before, and we are here to help you! I promise to write more to bring you up to date over the summer, but, for now, some key events you won't want to miss are provided below! Make sure you plan to attend the International Feng Shui Conference in San Diego - go to <http://www.fengshuiseminars.com/conference2005.htm> for details, and more below!

Wishing you a wonderful summer,

With peace,
Carol Cannon
